**Career Summary:** Twenty-nine years of progressive oncology nursing leadership success across clinical, education, professional practice, research and leadership roles at local, regional, national and international levels. Extensive experience in:

- Strategic visioning and outcomes-focused leadership to advance strategic directions
- Undergraduate, continuing education, oncology nursing certification and professional practice curriculum design, program development, teaching, and evaluation
- Developing, establishing and evaluating the uptake of national professional standards and clinical guidelines
- Model of care redesign and innovation to optimize nursing's role and practice scope within the interprofessional team
- Stakeholder engagement; mentoring, partnership and coalition-building strategies
- Solving complex problems using theoretical, evidence-informed and pragmatic approaches
- Quality improvement, knowledge translation and research innovation to improve the cancer experience, person-centred outcomes, nursing care delivery and system responsiveness to meet the needs of patients, families and populations at risk for/living with cancer.

**Scholarly and Research Contributions:** Has held over \$2.75 million in research funding as Co-I/PI, awarded \$232,000 in doctoral fellowships and scholarships, published 31 peer reviewed and 32 non-refereed papers, and 15 published abstracts. Has been invited to give 96 keynotes, guest lectures and public presentations; given over 108 peer-reviewed presentations at international, national and local conferences; and delivered 39 workshops to nurses, interprofessional groups and patients and families.

**Research Focus:** Equity within cancer survivorship care systems; developing and evaluating cancer symptom management interventions, tools and resources; evaluating exercise and lifestyle interventions; complementary medicine decision making; and exploring opportunities to evolve nursing's role to foster high quality, equitable care for people and their families at risk for and/or living with cancer.
